SUBJECT INDEX, VOLUME 133

- Appalachian, foraging of white-tailed deer 18
- Arizona, number of seeds per pod of legumes ... 197
- Behavior, adaptive, of *Drosophila* spp. 52
- Birds, artificial song perch use 164
- Canis latrans*, predation on deer and elk 36
- Canis lupus*, dispersal 368
- Clethra alnifolia*, safe sites and regeneration 112
- Colorado, age of limber pine 101
- Connecticut, use of woodchuck burrows by small mammals 360
- Cygnus buccinator*, food habits 274
- Datura stramonium*, fitness cost of triazine resistance 131
- Dreissena polymorpha*, prey of bull chub 170
- Drosophila robusta* and *D. tripunctata* acclimation and adaptive behavior 52
- Ecology, animal, abundance of white-footed mice 7
- acclimation and adaptive behavior of *Drosophila* 52
- artificial song perch use by birds 164
- bioenergetics of mice 373
- coyote predation on deer and elk 36
- decomposition of leaves in stream 184
- dispersal of wolf 368
- diurnal positions of brown trout 264
- fawn rearing success in white-tailed deer 290
- food habits of trumpeter swam 274
- foraging of white-tailed deer 18
- habitat use by longnose dace 177
- home range of European wall lizard 344
- mosquitoes and midges in pitcher plants 44
- predation by bull chub on zebra mussel 170
- scatter hoarding by chipmunks 312
- sex ratio in moles 298
- spiders, arrival and establishment 60
- trappability of house mice 283
- use of simulated canopy by foraging rodents 304
- use of woodchuck burrows by small mammals 360
- Ecology, plant, age of limber pine at tree line 101
- colonizing plants on Mt. St. Helens 76
- density and seed production of *Polygonella basiramia* 138
- effects of rock climbing on cliff goldenrod 229
- fecundity and germination of *Silene regia* 242
- fitness cost of triazine resistance on jimson-weed 131
- growth response of baldcypress 206
- induction of pinnateness in honey locust 213
- inhibitory effects of *Myrica cerifera* on *Pinus taeda* 256
- number of seeds per pod of legumes 197
- regeneration of *Clethra alnifolia* 112
- relict white pine stands in Wisconsin 88
- seedlings of *Lonicera maackii* 149
- vegetation recovery following fire 149
- Fish, habitat use by longnose dace 177
- host of freshwater mussels 1
- parasites of 333
- restricted fragment length polymorphisms in largemouth bass 364
- Florida, density and seed production of *Polygonella basiramia* 138
- fecundity and germination of *Silene regia* 242
- vegetation recovery following fire 149
- Genetics, restricted fragment length polymorphism in largemouth bass 364
- t-complex gene frequency in house mice 283
- Gleditsia triacanthos*, induction of pinnateness 213
- Hyaella azteca*, life history and morphology 322
- Illinois, effects of rock climbing on cliff goldenrod 229
- fawn rearing success in white-tailed deer 290
- induction of pinnateness in honey locust 213
- Insects, adaptive behavior of *Drosophila* spp. 52
- decomposition of leaves in stream 184
- mosquitoes and midges in pitcher plants 44
- Invertebrates, other than insects, freshwater mussels 1
- life history and morphology of *Hyaella* 322
- spider arrival and establishment 60
- sympatric Eubranchiopoda 367
- zebra mussel prey of bull chub 170
- Kansas, use of simulated herbaceous canopy by foraging rodents 304
- Kentucky, seedlings of *Lonicera maackii* 124
- Lonicera maackii*, seedling distribution and persistence 124
- Maine, artificial song perch use by birds 164
- Mammals, abundance of white-footed mice 7
- bioenergetics of mice 373
- chipmunk scatter hoarding 312
- coyote predation on deer and elk 36
- fawn rearing success in white-tailed deer 290
- foraging of white-tailed deer 18
- foraging rodents 304
- sex ratios in moles 298
- trappability of house mice 283
- use of woodchuck burrows by small mammals 360
- Massachusetts, restricted fragment length polymorphism in largemouth bass 364
- Michigan, decomposition of leaves in stream 184
- habitat use by longnose dace 177
- life history and morphology of *Hyaella* 322

- Micropterus salmoides*, restriction fragment length polymorphism 364
 Minnesota, dispersal of wolf 368
 Morphology, plant induction of pinnateness in honey locust 213
Mus domesticus, trappability 283
Myrica cerifera, inhibitory effects on *Pinus taeda* .. 256
 New Jersey, regeneration of *Clethra alnifolia* 112
Nocomis biguttatus, predator on zebra mussel 170
 Nova Scotia, parasites on fish 333
Ocotomys nuttalli, bioenergetics 373
Odocoileus virginianus, foraging 18
 Ohio, home range ecology of European wall lizard 344
 Parasites, of fish in freshwater ponds 333
 Pennsylvania, mosquitoes and midges in pitcher plant 44
Peromyscus leucopus, variation in abundance 7
 Physiology, plant growth response of baldcypress number of seeds per pod 197
Pinus flexilis, ages at lower and upper treeline sites 101
P. strobus, relict stands in Wisconsin 88
P. taeda, inhibited by *Myrica cerifera* 256
Polygonella basiramia, density and seed production 138
 Reptiles, ecology of European wall lizard 344
Rhinichthys cataractae, size-related habitat use 177
Salmo trutta, diurnal positions 264
Silene regia, fecundity and germination 242
Solidago sciaphila, effects of rock climbing on 229
 South Carolina, growth response of baldcypress .. 206
 sex ratios in moles 298
Tamias amoenus, scatter hoarding 312
Taxodium distichum, growth response 206
 Tennessee, freshwater mussels on fish 1
 Virginia, zebra mussel as prey of bull chub 170
 Washington, plants on Mt. St. Helens 76
 spider arrival and establishment on Mt. St. Helens 60
 Wisconsin, relict eastern white pine 88
 Wyoming, coyote predation on deer and elk 36
 diurnal positions of brown trout 264
 food habits of trumpeter swan 274
 sympatric Eubranchiopoda 371
